Annual Budget:
Cap 20.000.000 €

Active Countries:
USA, GER, AUT, SUI

Ticket Size:
0.1 – 5.0 M€

Funding Stages:
Seed to Growth

Portfolio Ventures:
> 15

AM VENTURES – current technology ventures

Company	Field	Product description	Country
	Hardware	System for AM of high performance ceramics	
	Hardware	Systems for micro laser sintering	
	Hardware	Coloring machine for laser sintered parts	
	Hardware	SLS system for the mass market	
	Software	Online 3D printing services comparator	
	Material	Photopolymer materials	
	Material	Coated polymers	
	Material	Metal Matrix Composites and Ceramics	

AM VENTURES – current manufacturing ventures

Company	Field	Product description	Country
 plusmedica ^{OT}	Polymers	Customer specific orthoses	
 LIMEMAKERS	Metals	Fashion and product design	
 SOLS	Polymers	Customer specific shoe insoles	
 vectoflow <small>measurements in fluids</small>	Metals	Multi-hole-probes	
 3T	Polymers Metals	Plastic and metal parts and tools	

AM for mass-customization

– a real life example

Situation - SOLS

AM VENTURES

Start-up,

- Founded 2013, NY, USA
- Funded by AM Ventures to „get the ball rolling“

Target Application:

- Customized shoe-insoles to address common orthotic problems

USPs

- Simple scanning system
- Effective software efficiently translates digital images to 3D printable files

AMV's answers to SOLS issues

AM VENTURES

SOLS

We are Marketing and Software experts ...

Continue to focus on what you're good at

We are inexperienced in Manufacturing ...

AMV will manufacture until you're ready to take it over

We have limited money ...

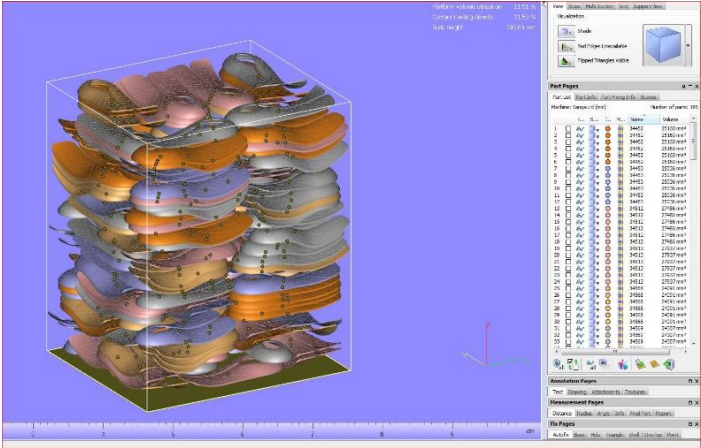

AMV will aggregate costs against convertible bond to support growth

AMV Manufacturing – Texas, USA

AM VENTURES

Outcome

AM VENTURES

4x EOS Machines produce for SOLS

SOLS latest valuation was 60 M\$

AM Ventures owns equity at early valuation

Entire footwear market wants to customize
